

Memorandum

Date: September 24, 2007

To: All DWR Employees

William A. Croyle, Chief

From: Division of Flood Management
Department of Water Resources

Subject: **Flood Alert – Zaca Fire Burn Area Wet Weather Event**

The Flood Alert that was initiated at 0800 on September 21, 2007 has been **rescinded** as of **0800 on September 24, 2007**. High rainfall predicted over the Zaca Fire burn area this past weekend did not materialize. The weather system remained south and off shore of the burn area and rainfall totals were well below the 1 to 3

inches forecast. The Santa Maria River remained dry throughout the storm event.
